ABSTRACT OF THE DISCLOSURE

Peroxide curable fluoroelastomers having copolymerized units of vinylidene fluoride or tetrafluoroethylene major monomer, at least one
5 other fluorinated major monomer, a cure site monomer having the general formula $\text{CH}_2=\text{CH}-(\text{CF}_2)_n\text{I}$, where n is an integer between 2 and 8, and iodine bound at the terminal positions of polymer chains, process well and have excellent tensile properties.
